**Project:** *Streetscape Project on Canal and Pacific Streets  
in the South End of the City of Stamford*

**Location:** *Stamford, Connecticut*

**Owner:** *City of Stamford*

---

**ADA provided Construction Engineering and Inspection services for project 135-317 in the City of Stamford. The City reconstructed Canal St. and Pacific St. to provide operational improvements and street enhancements to encourage development in the City's South End. Approximately 2100 feet of Canal St. was improved, and approximately 900 feet of Pacific St. will be reconstructed. The construction contract value is approximately \$6,000,000.**

**Services included continuous site inspections, daily reporting, surveying, measuring and hot-mixed asphalt placement. All work and record keeping was performed in accordance with the Connecticut Department of Transportation's Construction Manual, policies and procedures.**
