

Project: *Construction Inspection of Component Rehabilitation/
Replacement of Railroad Bridges by Metro-North Forces
supporting MNRR traffic along the New Haven Mainline and
& Branch Lines throughout Connecticut*

Location: *Connecticut*

Owner: *Connecticut Department of Transportation*

A.DiCesare Associates is providing construction engineering services for the component rehabilitation/replacement of Railroad Bridges supporting MNRR traffic along the New Haven Mainline and Danbury, New Canaan & Waterbury Branch Lines throughout Connecticut. The scope of work includes installation of temporary supports, structural steel replacement, masonry repairs, and placement of structural concrete by MNRR's in-house forces. Daily reporting of manpower, material, and equipment usage together with production and progress rates are key to charting work activities.
