

Project: *Pavement Restoration – Old Hyde Road*
Location: *Weston, Connecticut*
Owner: *Weston Department of Public Works*

A.DiCesare Associates provided resident construction engineering and inspection services in connection with an ARRA federally funded project for the Town of Weston. Old Hyde Road comprised nearly one mile of roadway including twenty-eight active driveways and three intersections.

Services included continuous site inspections, daily reporting, surveying, measuring, hot-mixed asphalt placement and nuclear gauge material testing. All work and record keeping was performed in accordance with the Connecticut Department of Transportation’s Construction Manual, policies and procedures.
