

---

**Project:** *Rehabilitation of NRG Devon Power Bridge*

**Location:** *Milford, Connecticut*

**Owner:** *NRG Devon Power*

---

**A.DiCesare Associates performed construction engineering services for the rehabilitation of the NRG Devon Power Bridge over Metro-North Railroad's Waterbury branch line in Milford, CT. Rehabilitation consisted of steel repairs, precast deck replacement and painting of the structural steel.**

**Key successes of the project include providing the contractor with appropriate field direction for steel painting and repairs and good coordination with the Metro-North Railroad.**
