

Project: *MTA Port Jervis Line Post Tropical Storm Irene*
Location: *MTA West of the Hudson*

A.DiCesare Associates (ADA) is participating in the evaluation of the MTA's insurance claim for the damage assessment of the Port Jervis line MP 31 to MP 45 from tropical storm Irene, for the collaborative of insurer's. The scope of work involves assessing in the field work performed by Metro-North and their representative contractors, for compliance with approved plans and specifications, adherence to appropriate engineering principles to assess whether betterments are derived. ADA is also assessing the work provided directly by Metro-North for eligibility regarding the insurance claim. The total value of work under observation by Metro-North and its' contractors is approximately \$40,000,000.

Services include continuous site inspections, daily record keeping, and periodic report preparation to inform our client regarding their financial liability for the work performed by Metro-North.
