

---

**Project:** *Reconstruction of Interstate 95*  
**Location:** *Bridgeport, Connecticut*  
**Owner:** *Connecticut Department of Transportation*

---

**Working with M.DeMatteo/Brunalli Construction, A.DiCesare Associates is providing professional engineering and construction support services for the Reconstruction of Interstate 95 through a highly urbanized section of Bridgeport, CT. The 140 Million Reconstruction Project includes the replacement of nine (9) bridges as well as launching sixteen (16) girders with two hundred foot cantilevered section across active Metro-North Railroad tracks. A.DiCesare engineers participated in several value engineering proposals for the enchantment of time of completion and project cost savings.**

**Multiple stages of construction together with extensive coordination with the Connecticut Department of Transportation, Metro-North Railroad, and the City of Bridgeport are key to project success.**
