

Project: *Private Residence*
Location: *Scarsdale, New York*
Owner: *Private*

A.DiCesare Associates, P.C. provided all requisite structural engineering design and construction support services in connection with the restoration of a historic home in Scarsdale, New York.

The project included extensive evaluation of the integrity of existing structural elements together with modernizing this luxurious home with all the amenities of the 21st Century. Adherence to local and state load requirements incorporated into all design elements, which included three dimensional modeling. Project responsibilities included shop drawing review, periodic site visits, and continuous communication with Architect and Builder during all phases of construction.
