

Project: *Private Residence*
Location: *Scarsdale, New York*
Owner: *Private*

Working with a world-renown architect, A.DiCesare Associates, P.C. provided all requisite structural engineering design and construction support services in connection with a luxurious home sequestered in the rolling hills of Scarsdale, New York.

Adherence to applicable wind and seismic load requirements incorporated into all design elements, which included three dimensional modeling. Project responsibilities included shop drawing review, periodic site visits, and continuous communication with Architect and Builder during all phases of construction.
