

Project: *Bridge Diving Inspection & Scour Evaluation*
Location: *Farmington, Connecticut*
Owner: *Town of Farmington*

A.DiCesare Associates performed bridge diving inspection and scour evaluation of a railroad bridge which has been converted into a pedestrian trail way serving the people of Farmington, CT. Stipulated in the bridge study report is the need to perform a scour evaluation following storm events exceeding the 25-five year average. A.DiCesare Associates has served the Town on several occasions.

Field activities challenges include site access and extremely swift currents.

A.DiCesare Associates, P.C.
