

Project: *New London City Pier*
Location: *New London, Connecticut*
Owner: *City of New London*

A.DiCesare Associates performed an underwater and above water inspection of the New London City Pier for the City of New London. Project included detailed inspection of timber piles to document marine borer activity, together with increment 2-inch diameter timber cores of submerged piles to establish mechanical properties of the timber species.

All work performed in accordance with OSHA regulations utilizing a three-man dive crew, led by a Professional Engineer, with surface supplied air, continuous audio and video monitoring, as well as the policies, procedures, and specifications of the Connecticut Department of Transportation, US Coast Guard and Homeland Security.
