

Project: *Port Newark Berths 3 & 50*

Location: *Port Newark, New Jersey*

Owner: *Port Authority of New York & New Jersey*

A.DiCesare Associates performed an underwater and above water inspection of the Port Newark Berths 3 & 50 for the Port Authority of New York & New Jersey. Project included detailed inspection of nearly 1,000 timber piles to identify deficiencies, as well to document marine borer activity. Under deck together with above deck inspection performed to document condition of roadway pavement and identify areas of subsidence.

All work performed in accordance with OSHA regulations utilizing a three-man dive crew, led by a Professional Engineer, with surface supplied air, continuous audio and video monitoring, as well as the policies, procedures, and specifications of the PANYNJ, NJDOT, US Coast Guard and Homeland Security.
